# A LITTLE BIT ABOUT US

Find out more  
about our charity

**We're Breast Cancer Now, the research and support charity. However you're experiencing breast cancer, we're here.**

We fund life-saving research, campaign for change and provide information and support to anyone affected by breast cancer.

Why? Because our vision is that by 2050, everyone diagnosed with breast cancer will live, and be supported to live well.

**But we can't do it alone. Will you join us?**

# LIFE-SAVING RESEARCH

**We support over 290 of the brightest minds in breast cancer research.**

They're discovering how to prevent breast cancer, live well with the disease, and save lives. Every day, they get closer to the next breakthrough.

To date, we've invested over £268 million in world-class research. In 2021, our research led to around 200 scientific discoveries. But we're not stopping yet.

Find out what we're working on at  
**[breastcancernow.org/ourresearch](https://breastcancernow.org/ourresearch)**

# LIFE-CHANGING SUPPORT

**Whoever you are, and whatever your experience of breast cancer, our free services are here for you.**

Whether you're worried about breast cancer, dealing with your diagnosis or trying to live your life with or beyond treatment – or if someone you love is. If you're affected by breast cancer, you can turn to us.

Our services are available in person, online, on the phone or in print – meaning you can get the support you need in the way you want. Because whatever breast cancer brings, we're here.

Get support today at

What we do is only possible with your support. Find out how you can get involved at [\*\*breastcancer.org\*\*](https://breastcancer.org)

# IN THE UK

**Every 10 minutes, someone is diagnosed with breast cancer.**

That's around 55,000 women and 400 men every year.

**Breast cancer is the most common cancer.**

1 in 7 women will develop the disease in their lifetime.

**1,000 people die from the disease every month.**

And it's estimated that over 61,000 people are living with incurable secondary breast cancer.

**Our vision is that  
by 2050, everyone  
diagnosed with breast  
cancer will live, and be  
supported to live well.**

**But to make this vision  
a reality, we need to  
act now.**
