

# WHAT COULD YOUR FUNDRAISING PAY FOR?

**£50**

**£50 could bring one of our expert speakers to a workplace or community group to talk about breast awareness.** Knowing the signs and symptoms of breast cancer can encourage people to check their breasts regularly and report any new or unusual changes to a GP.

**£225**

**£225 could pay for 1 day of research.** That's another day of progress. A day closer to breakthroughs. And a day closer to a world where everyone with breast cancer lives, and lives well.

**£500**

**£500 could pay for 5 people to go to Living with Secondary Breast Cancer.** These group sessions are a space for people with incurable secondary breast cancer. They'll get expert information and meet other people going through the same thing.

**£800**

**£800 could help us run our online campaigns for a month.** Allowing supporters to sign a petition or email their MP to help bring about change that improves the lives of people affected by breast cancer.

**£1,550**

**£1,550 could keep our breast cancer support app Becca running for a whole year.** Becca is your pocket companion to primary breast cancer, with reliable information and real-life stories from people who've been there.
