

WHAT COULD YOUR FUNDRAISING PAY FOR?

£50

£50 could bring one of our expert speakers to a workplace or community group to talk about breast awareness. Knowing the signs and symptoms of breast cancer can encourage people to check their breasts regularly and report any new or unusual changes to a GP.

£100

£100 could pay for 1 person to go to Living with Secondary Breast Cancer. These group sessions are a space for people with incurable secondary breast cancer. They'll get expert information and meet other people going through the same thing.

£260

£260 could keep our breast cancer support app Becca running for 2 months. Becca is your pocket companion to primary breast cancer, with reliable information and real-life stories from people who've been there.

£300

£300 could help 10 people affected by breast cancer get vital answers by calling our free helpline. No question is too big or too small, and all calls are answered by breast care nurses and trained staff.

£460

£460 could pay for 2 days of research. That's 2 days for a researcher to better understand breast cancer. Work on their project. And find new ways to diagnose, treat and prevent the disease.
