Walk 100 Miles in May challenge 2026 – Matched Giving

Matched giving is a fantastic way to double the impact of your fundraising efforts. Why not ask your manager, boss or company if they can match yours!

It doesn't have to be pound-for-pound—employers can choose to match a percentage of donations, such as 50%.

What's next?

1. Notify us of your employer's matched giving.

Email virtualchallenges@breastcancer.org to inform our team that your employer plans to match your fundraising efforts.

2. Receive a formal matched giving letter

Once we've received your email, we will confirm your total funds raised for the challenge and send you an official matched giving request letter reflecting this amount.

3. Provide the letter to your employer

Pass this letter on to your employer as proof of your donation. It will also include all required payment information, along with a unique reference number to ensure their matched donation is linked to your fundraising efforts

4. Keep us informed

If you find out that your employer has submitted the funds, please send us a quick follow-up email. This will help us track the donation and ensure everything is processed smoothly!

If you have any questions, please do reach out. You can email us at virtualchallenges@breastcancer.org or call us on **0345 077 1892**.
