

WHAT COULD YOUR FUNDRAISING PAY FOR?

**BREAST
CANCER
NOW**

£10

could buy 50 large plastic test tubes.

These 50ml containers are essential items in the labs where our life-saving science happens.

£20

could buy 500 tiny test tubes, allowing scientists to experiment with small samples. These test tubes hold volumes of around a quarter of a teaspoon. And our scientists use them for a wide range of experiments.

£40

could pay for 1 hour of world-class science in the lab.

When it comes to research, every second counts. And every hour in the lab brings us even closer to life-saving breakthroughs.
