ABOUT US

We're the UK's leading breast cancer charity. And we're combining the power of science and support to change breast cancer. Now.

We're funding some of the world's best science now, so no one dies of breast cancer in the future. We're here with life-changing support now, so no one faces breast cancer alone. And we're campaigning now – for better awareness, quicker, earlier diagnosis and access to treatments – so everyone with breast cancer can live and live well.

WHY WE DO IT

Breast cancer is far from a done deal. It's still a disease that takes and rips apart far too many lives.

In the UK:

- 1 in 7 women will develop breast cancer in their lifetime.
- It's the biggest killer of working-age women*.
- There are around 61,000 people living with incurable metastatic breast cancer. Unsure of what the future holds and whether they'll be able to get the treatments they need.

This needs to change. Now.

* 'Working age' defined as 20-64.

In Scotland and Wales, heart disease slightly overtakes, but breast cancer is still one of the top killers.

LIFE-SAVING SCIENCE

Uncovering how breast cancer develops and spreads. New and better treatments that can find and destroy cancer cells. And one day, cures that can stop it in its tracks entirely.

We're funding over 300 of the brightest minds in breast cancer research. They're working tirelessly right now. So no one dies from breast cancer in the future.

LIFE-CHANGING SUPPORT

Trusted information on everything from symptoms to chemotherapy. Support to help you live well. Meeting people who are going through it as well – people who just get it.

We're here with life-changing support now. Whatever you're going through. However you need it. So you never have to face breast cancer alone.

CHANGE-MAKING CAMPAIGNS

Making sure everyone knows the importance of checking their breasts and chests, and the signs to look out for. Pushing for better diagnosis and care. Making sure everyone can get the drugs they need.

We're campaigning to make change happen now. So everyone with breast cancer can live and live well.

A BOLD NEW FUTURE

We have a bold vision.

That by 2050, everyone with breast cancer will live and live well.

We can't do it on our own.

But together, we can make change happen. Now.
