

# BINGO

**BREAST  
CANCER  
NOW**

Organising bingo is easy and you can hold it practically anywhere – from your school, to home or your workplace. Have fun, raise money and make life-changing breast cancer research happen.

## HOW TO PLAY

**Choose how much you're going to charge people to play.** This should be the same for everyone - we suggest a £2 participation fee. Participants can play multiple rounds, but their total spend should not exceed £8.

**Print each player a bingo card (or 2)** making sure that everyone playing has a different card.

**Use a random number generator to choose numbers from 1 to 75,** or if you're really getting into the spirit of things, number some ping pong balls or pieces of paper.

**Let everyone know to shout "bingo"** if they're the first person to get a horizontal, vertical, and diagonal line, and finally a full house!

**Draw the numbers and play!** You can play just for fun or decide a small prize for each line and full house.
