SUPPORT FOR TODAY
HOPE FOR THE FUTURE

We’re Breast Cancer Now, the charity that’s steered by world-class research and powered by life-changing care. We’re here for anyone affected by breast cancer, the whole way through, providing support for today and hope for the future.

We’re that trusted friend that you turn to for caring support when you need it most. That expert authority on research who’s making breakthroughs and driving forward progress. And that vehicle for change, acting now to make sure anyone affected by breast cancer gets the best possible treatment and care.
STEERED BY WORLD-CLASS RESEARCH

By supporting around 340 of the brightest minds in breast cancer research, we’re discovering how we can prevent, save lives and live well with breast cancer. Giving us the power to drive forward progress on a global stage.

To date, we’ve already invested £255 million in breast cancer research. And we’re not about to stop. Right now, we’re funding around 80 cutting-edge projects across the UK and Europe worth over £26 million.

POWERED BY LIFE-CHANGING CARE

Our breast care nurses, expertly trained staff and volunteers, and award-winning information is all here to make sure anyone affected by breast cancer gets the support they need in a way that works for them.

From our Moving Forward courses, Living with Secondary Breast Cancer groups and Younger Women Together meet-ups. To our Becca app, Forum and Helpline. Whoever you are, whatever your experience of breast cancer - we’ll always be here.

Get support now at breastcancernow.org/oursupport
Every 10 minutes, someone in the UK is diagnosed with breast cancer. That’s around 55,000 women and 370 men every year.

Breast cancer is the most common cancer in the UK. One in seven women in the UK will develop the disease.

Every year, around 11,500 women and 85 men die from the disease. And an estimated 35,000 people are living with incurable secondary breast cancer.
By 2050, we believe everyone diagnosed with breast cancer will live – and be supported to live well.

But we need to act now.
You can find out more about our work and how to get involved at breastcancernow.org
