

CONNECTING TO STRAVA

Track your distance travelled using Strava (a free, easy to use app), which can be directly linked to your fundraising page.

Follow these steps to link your Strava account to your JustGiving page:

- Firstly, ensure you are logged out of your Strava account on your web browser.
- Go to ridenow.breastcancernow.org
- Log in and select 'view page'. This will take you to your Ride Now fundraising page.
- At the bottom of the page, click on "edit page".
- You will now see a selection of options, click on "fitness".
- Click on the Strava button and then log into Strava with your login details for your own personal Strava account.
- Authorise the website to connect your fundraising page to your Strava account.
- As you complete your fitness activities on Strava, this will now automatically appear on your fundraising page.

Any data logged from 6am 19 April – 6pm 25 April will be counted.
